Notice to Mariners 006.2018

Dated 01.03.2018

Demolition of Frontier Loading Tower and Conveyor

Mariners are advised that commencing on Monday 5th March 2018 the Frontier grain loading tower and conveyor will be demolished. It is expected that this work will take 2 days to complete. All work will be carried out from the quay using a Crowland Telescopic Crane.

It is not anticipated that these works will cause a hazard or danger to navigation and no loads are expected to be swung over the quay edge. Unfortunately there is always the possibility of unexpected incidents and all mariners are advised to give the North Quay a wide berth.

Work will be carried out in daylight hours

This Notice will be cancelled when demolition works in this area are completed.
